

LIVING THE 90%

Darci Lang

Living the 90%, a Deeper Dive, is part two of the Focus on the 90% philosophy. It provides you with the tools and foundation to come back together, refresh the Focus on the 90% message and dig deeper in a "pen to paper" reality check on how you've moved your magnifying glass in the key areas of your life.

DARCI WILL CHALLENGE WHERE YOU FOCUS YOUR MAGNIFYING GLASS WHEN REFLECTING ON:

Your focus – How have you changed what wasn't working? Darci will dive into your progress and discuss how you are using your 90% lens when facing 10% times.

Your space – Life is complicated. How are you balancing the positive and negative influences with family, the job, your clients and most importantly yourself?

Your personal life - Positivity is a continuous investment. Are you finding ways to turn your negative relationships into the positive ones you want?

You had us laughing, shedding a few tears and sharing parts of our journey we have been too vulnerable to share. Your presentation and inspiring message will stay with our community for months (or years!) to come."
