WHERE IS YOUR FOCUS?

When a person holds Darci's magnifying glass up, they are in control of what they focus on. Do they focus on what is good and what they have control over?

- How are you doing in this new working environment?
- Are you concerned about connecting with your teams and keeping morale high when so many are working from home?
- Are you concerned about your team members' well-being?
- What can we do to keep ourselves and those around us "well" as we focus forward?

Where people set their focus on a day-to-day basis powerfully affects how they feel, how they "show up" in their job, how they treat those around them at work, how they serve their clients and if they have something left at the end of the day for the people they love.
